Lasr week is reported to have been the coldest snap ever known in Nebrasks. Men were frozen to death in a few yards of their houses, while attempting to teed their stock. The destruction of hogs and cattle was great. Gullies on the railways were filled with snow as hard as ice, and snow plows were useless. And this occurred in the latter part of April!

Forty or fifty years ago, Columbia enliege was in a flourishing condition and assisted in the education of many of our prominent men, but now, not even the ruins of the building are visible, nor has the picturesque site retained its groves of stately poplars.

The Fighting Indians. News from the Modoc war has been very contradictory and unsatisfactory nince the assassination of Gen. CANBY by Captain Jack. A lengthy dispatch from from San Francisco gave a glowing description of a terrific battle between Federal forces and the Modocs, and stated that the latter had left the lays beds, their impregnable fortress, and taken to the mountains. But a subsequent dispatch announced that only about six Indians and four or five white soldiers, had been killed in this great battle, and that the Indians had left their lava beds. The Federals had brought several cannon to bear on the Indian camp, which was situated in a the redskins being unused to such iuatruments of warfare became somewhat demoralized, and moved to another portion of the lava bed, where they are even more strongly fortified. Of course their extermination is only a question of time, but unless their brave leader, Capt. JACK, can be killed, it cannot be accomplished except at great sacrifice of blood and treasure.

Let Columbia and Maury Coun-

ty Arouse Themselves. Our information from Wayne Lawrence and Gilea Counties is of such a nature as to induce us to make another appeal to our citizens in regard to the railroad. The importance of this enterprise has been discussed enough. The only question now is will we get it or lose it torever? Action, prompt, decided action, is what we need. The road should be put under contract as far as Lewisburg without delay; but to do this an additional subscription of ten thousand dollars is needed. Can it be obtained? Shall we lose the road, rather than raise this amount? Be not deceived. We must act or we will be left in the rear. Marshall county now holds out the right hand of fellowship. Will we reject it? If we do not set promptly, she will turn in another direction. This is a crisis in our destiny. The opportu-

Other counties will not wait on us always. They look to us to lead off, as we are to receive the lion's share of the benefits. Let the subscription of ten them thousand dollars be raised without delay, the road to Lewisburg put under contract, and then we can discuss plans of extending this road, and of securing other roads-railroads and turnpikesby a liberal county subscription. Until we get the road to Lewisburg under contract, we can do nothing. That is the point first to be gained. Let us all work to that end.

LAST week the Memphis papers contained the startling announcement that the murderer of the late Gen. T. C. HINDMAN, who was foully and secretly murdered several yearago, had been discovered. The person who proposed to give the desired information to Mrs. HINDMAN-VAUGHN, alias BURDETT-has been arr sted himself, as an accomplice, at her instance; which looks a little like bad faith on her part. VAUGHN says he belonged to the Rock City Guards, First Tenn. Reg't, Infantry during the war, and was in the battle of Shiloh. We happen to know that the Rock City Guards were not in that battle. Mrs. NEVILLE, a witness

the Rural Sun, writing from Frank lin, blan es Gov. Brown, in the appointm nt of Superiatendent of Public Instruction for the State, because he did not appoint a school teacher to the position. We do not know that because a man is a teacher he is better qualified for the position, but we can inform "Jam Satis," if it will be of any consolation to him, that Col. JOHN M. FLEMING did teach school, to our personal knowledge, for a number of years. Is "Jam Satis" satisfied.

throughout this and other countries, has shown that it does surely and effectually control them. The tes-timony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may re y for full protection. By curing Coughs, the forerunners of more serious disease, it saves nonumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical Every family should keep it on hand as

protection against the early and unperceived attacks of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer
